Check-in III: Literature Review for Industry Project

Instructor: Zhenyuan Lu

Objective:

Find 4 research papers related to your industry project. Write a one-page summary for each paper, summarizing the key concepts, methodologies, and contributions of each paper. These summaries will be used in your final paper in the 'Related Work' section.

Instructions:

1. Choose 4 research papers that are directly related to your industry project.

2. For each paper, write a one-page summary covering:

  - Title of the paper

  - Authors

  - Journal or conference details

  - Year of publication

  - Key concepts or problem addressed

  - Methodologies used

  - Results or contributions

  - How this paper relates to your project

3. Ensure that each summary is concise but informative, capturing the essential details of the paper.

4. Submit this assignment as a PDF document.

5. This work will contribute to the 'Related Work' section of your final paper.

Additional Note:

Make sure to combine all the reviews into a single PDF document before submitting.

Grading:

This check-in will be graded based on the relevance of the papers chosen and the clarity and depth of the summaries provided.
